

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

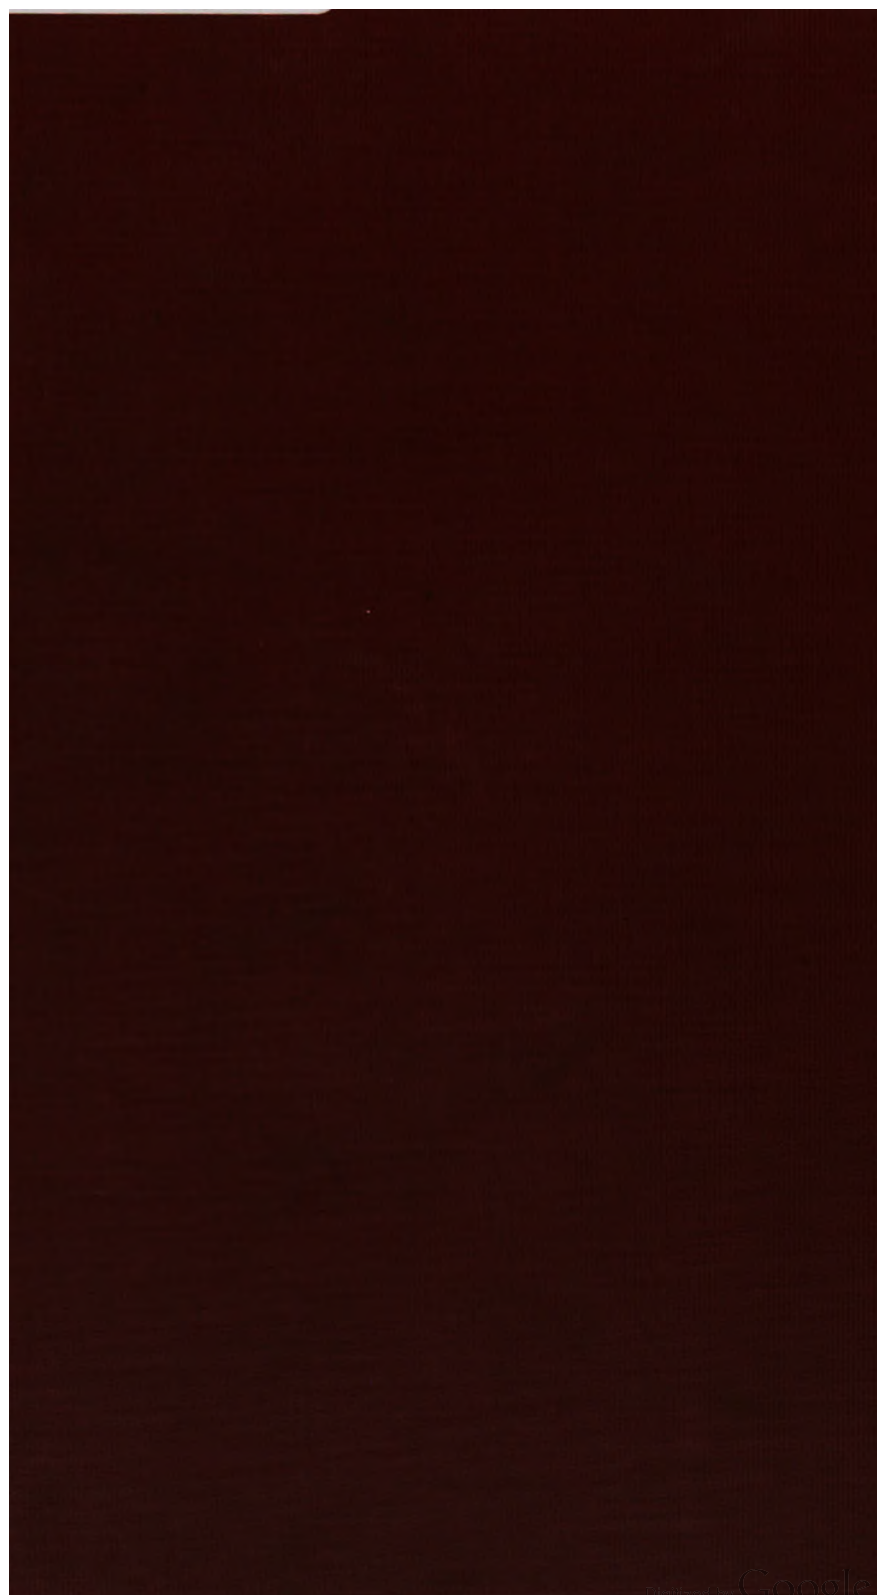

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

LAND OFFICE—BOUNDARY LINES.

FINANCIAL STATEMENT.

The current business of the Land Office Bureau for the fiscal year ending November 30, 1917, is given in detail in the following classified statement of work done and moneys received and paid into the State Treasury:

388 copies of drafts of surveys made and sent out,	\$388 00
519 copies of patents made and sent out,	519 00
120 copies of warrants made and sent out,	60 00
24 copies of applications made and sent out,	12 00
115 searches,	28 75
41 connected drafts, embracing 289 tracts,	216 75
7 new warrants issued for vacant lands,	1,063 28
30 patents issued,	831 66
71 copies of miscellaneous papers,	344 00
	\$3,463 44

COPYING WORK.

The copying of the old warrants, many of which, from age and constant handling, had become worn and broken, was begun in 1912 under the provisions of the Act of Assembly of February 16, 1833, and has been continued since that time. During the past year the usual force of copyists has been constantly employed, as the appropriation for this work was granted by the Legislature and approved by the Governor, and a very large number of these important papers have, therefore, been copied, corrected and bound in paged volumes, with numbers corresponding to the Warrant Registers, being thus made safe for many years to come.

The clerical force doing the copying work above mentioned, also does the current copying work of the Department, and is therefore often assigned to the copying of surveys, warrants, etc., and to making tracings of numerous old records ordered by attorneys and

others interested therein. This current work is always given precedence over any other demands on the services of these employees, in order that those requesting copies of Land Office or other records may receive them at the earliest possible moment.

WARRANT REGISTERS.

Many of the Warrant Registers, from constant handling in the prosecution of the work of the Land Office, have become mutilated, and as they lack much data as to the later disposition of the warrants therein entered, they are being copied and such information added. Three of the clerks are almost constantly employed on this class of work. They have sought out the additional information and during the past year have completed several additional Registers of the counties of the State, much work having been done in searching out patents granted on old warrants. This work will be continued until all the Warrant Registers are completed, with all information pertaining to the individual warrants added up to date. This new information in the Warrant Registers is a valuable aid to officials of the Land Office in supplying quickly data asked for by attorneys and others.

WARRANTEE MAPS.

The work of redrafting and correcting the preliminary maps of the townships of Fayette county was continued during this year, but two townships remaining unfinished, and they will be completed early next year.

The Department has completed warrantee maps of Allegheny, Lawrence and Greene counties, in addition to much work done on the maps of Mercer, Fayette and Washington counties. These maps are of inestimable value in various ways in the search work of the Department, and justify the time given to their construction and the expense of the work. They also preserve in concrete form much valuable data relative to the lands which they describe. The work on these maps is very much interfered with by the fact that the draftsmen are often detailed on other work of the Department, but as many as possible are kept on the work and it is being steadily pushed toward completion.

PENNSYLVANIA CURRENCY.

The question often arises of the value of the Pennsylvania currency used in commercial transactions from the earliest history of the Commonwealth up to the time of the adoption of the present currency system of dollars and cents.

A few years ago, the value of the bond of the Secretary of Internal Affairs, fixed at 10,000 pounds, was to be determined and the matter was referred to the Attorney General. The law officer of the Commonwealth decided that the value of a pound, as used in this particular case, was \$2.66 2-3 and was that of the Pennsylvania currency. While not cited in the opinion, yet the following table, taken from the old Western Calculator, by J. Stockton, A. M., a standard arithmetic used in the schools after 1828, is reproduced as additional evidence that the pound of Pennsylvania currency was \$2.66 2-3, and for the information of the general public:

EXHIBITING THE VALUE OF A DOLLAR IN EACH OF THE UNITED STATES; AND PRACTICAL THEORIES FOR EXCHANGING THE CURRENCY OF EITHER INTO THAT OF ANY OTHER.

The value of a dollar in any state is found, either opposite to that state, or under it in the table.

*The New England states are: New Hampshire, Massachusetts, Rhode Island, Connecticut and Maine.

Note.—In some parts of Ohio and Tennessee, the dollar passes for 7s. 6d., and in the new states, viz: Louisiana, Mississippi, Illinois, and Alabama, accounts are generally kept in federal money.

APPLICATIONS FOR VACANT LAND.

During the year ending November 30, 1917, nineteen applications for vacant land, including four applications for islands, were investigated and reports filed by the Secretary of Internal Affairs on the question of vacancy, as required by law. The reports of the Secretary on these applications follow:

REPORT OF DEPUTY SECRETARY OF INTERNAL AFFAIRS.

In the matter of the application of Frank M. Zeller for warrant to survey a vacant island, called "New Providence Island," situated in the Delaware river, within the bounds of Tinicum township, Delaware county, filed in the Department of Internal Affairs under date of April 12, 1909.

In pursuance of the duties imposed upon the Secretary of Internal Affairs by the first section of the Act of Assembly approved May 3, 1909, I submit the following report on the question of vacancy of the island described in this application:

Upon referring to the records of this Department, no plots, drafts, warrants or patents for islands in the vicinity described in this application can be found that in any way agree with or that can be identified as the island described in this application.

In answer to a request made by this Department in connection with the investigation of the alleged vacant island, the applicant has filed a blue print showing the relative location of the island to fixed points on the shore lands, which makes its location definite.

After considering the documentary evidence submitted by the applicant and the evidence of the records of the Land Office Bureau of this Department, I am of the opinion that the island applied for is vacant, and direct that a warrant to survey the same be granted after the requirements of the law in such cases have been complied with according to the rules and practice of this Department.

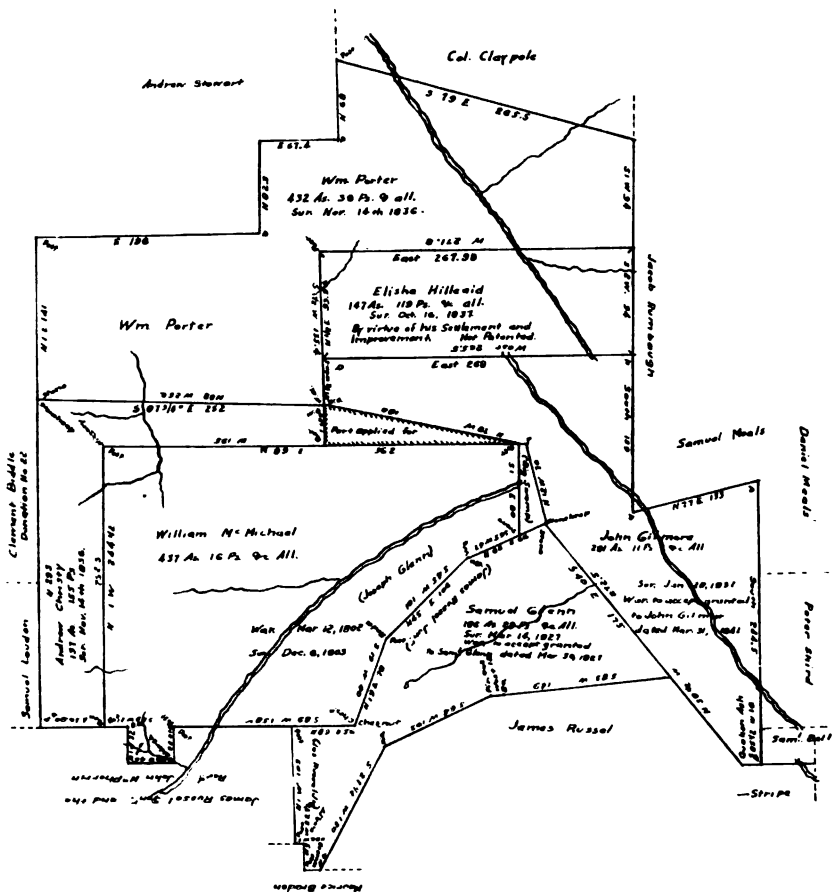

Respectfully submitted,

(SEAL.)

Deputy Secretary of Internal Affairs.

A Connected Draft of six tracts of land situated in the township of Washington and county of Butler made June 4, 1917, to accompany the report of the Secretary of Internal Affairs' report on the application of Lewis Bell for 16 acres and 134 perches of vacant improved land filed in the Department of Internal Affairs under date of June 4, 1917.

REPORT OF DEPUTY SECRETARY OF INTERNAL AFFAIRS.

In the matter of the application of Lewis Bell for warrant to survey 16 acres, 134 perches of improved vacant land situated in the township of Washington and county of Butler, filed in the Department of Internal Affairs under date of June 4, 1917.

In pursuance of the duties imposed upon the Secretary of Internal Affairs by the first section of the Act of Assembly approved May 3, 1909, I submit the following report of my examination of the question of vacancy of the land described in the above named application:

By reference to the connected draft hereto attached and made part of this report, it will be seen that the question of vacancy depends entirely upon the relative location of the six tracts shown thereon.

The William McMichael warrant, dated March 12, 1802, and surveyed December 6, 1803, is the senior survey of the six shown on the connected map.

Adjoining the William McMichael on the east, the Samuel Glenn must be located by reason of its calls for corners, courses and distances and the call of the John Gilmore warrant, dated March 31, 1841, for it, although the call of the Samuel Glenn on its west is for Joseph Glenn, which is a mistake of the Deputy Surveyor. It will be seen that between the line S 65 W 47 perches from a stone to a white oak, of the McMichael tract, and the same line of the Samuel Glenn tract bearing N 64 E 66 perches from the same white oak, there is a difference of 19 perches which takes the line to a stone heap, a corner of the John Gilmore. From this stone heap the Gilmore survey bears N 12 W 70 perches to a post, while the eastern line of the McMichael survey bears N 1 W 80 perches from a stone to a post in the line of said Gilmore survey bearing N 78 W 180 perches, part of which forms the northern boundary of the part applied for. The northern line of the McMichael survey, from the post in the line of the Gilmore survey bearing N 78 W 180 perches, bears S 89 W 362 perches to a post, and a part of this line forms the southern boundary of the part applied for.

The Samuel Glenn and John Gilmore tracts are located, beyond question, as shown on the connected draft, and the Andrew Christy, the Elisha Hilleaid (or Hilliard) and the William Porter tracts are also surely located by their calls for each other and by the calls of the John Gilmore and the William Porter tracts for the Andrew Christy, as shown on the connected draft.

The line of the Christy draft from a white oak at its northeastern corner, bearing south 51.1 perches to a post, forms the western boundary of the part applied for.

As this alleged vacancy is not covered by any of the surrounding warrants, and as a thorough search among the records of the Land Office fails to show that any office right has ever been granted to any other person for this land, I am of the opinion that the land applied

for is vacant and hereby direct that a warrant be issued to the said Lewis Bell to survey the land described in the above named application and return the same for patenting, in accordance with the law and practice of this office.

Respectfully submitted,

(SEAL.)

JAMES H. CRAIG,

Deputy Secretary of Internal Affairs.

REPORT OF DEPUTY SECRETARY OF INTERNAL AFFAIRS.

In the matter of the application of Mollie L. Valentine, of Bellefonte, Centre county, for 5 acres and ninety-two perches of vacant improved land situated in the township of Benner and county of Centre, filed in the Department of Internal Affairs under date of June 7, 1917.

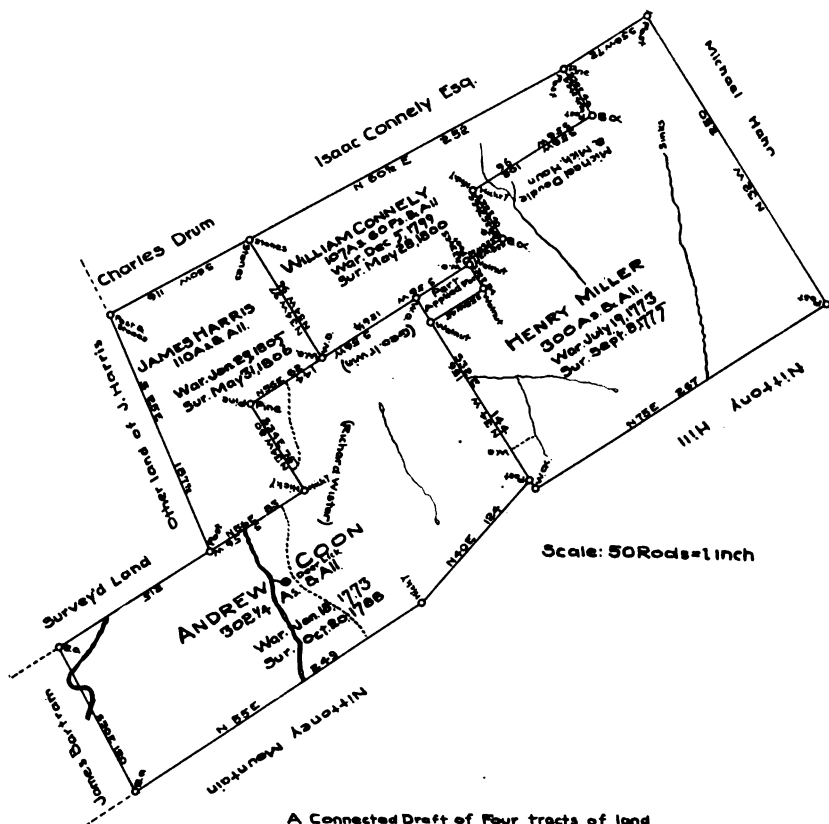

In pursuance of the duties imposed upon the Secretary of Internal Affairs by the first section of the Act of Assembly approved May 3, 1909, I submit the following report of my investigation of the question of vacancy of the land described in the above named application:

In order to determine the boundaries of the land applied for a connected draft of the surrounding surveys was constructed from the original drafts remaining on file among the records of the Land Office Bureau, a copy of which is hereto attached and made a part of this report. By reference thereto it will be seen that by locating the James Harris tract northwesterly from the Andrew Coon we have a hickory, a pine and a white oak corner common to them both and three courses with the same degree of bearing.

To the James Harris survey, the call of which is for the William Connelly, is added the William Connelly survey, a part of the southerly line of which, bearing S. 56 W. 126 $\frac{1}{4}$ perches from a white oak to a white oak, forms the northerly boundary of the part applied for.

The lines of the Henry Miller tract bearing S. 32 E. 24 perches from a walnut to a walnut forms part of the eastern boundary, and the line of same bearing S. 58 W. 45 perches from the last named walnut to a walnut in the eastern line of the Andrew Coon tract bearing N. 34 W., forms the southerly boundary of the part applied for; and this easterly line of the Andrew Coon extended northwardly on the same bearing 21 $\frac{1}{2}$ perches to a white oak, the northeasterly corner of the Andrew Coon tract, forms the westerly boundary thereof.

The construction of the four tracts as shown on the connected draft hereto attached leaves a parallelogram 45 by 21 $\frac{1}{2}$ perches not covered by these surveys. Failing, after a thorough search among the land records of this Department to discover other office rights cover-

A Connected Draft of Four tracts of land situated in Banner Township, Centre County, made to accompany the report of the Secretary of Internal Affairs, on the application of Melie L. Valentine, filed in the Department under date of June 7, 1917.

ing the land contained therein, I am of the opinion that the land described in this application is vacant, and direct that a warrant to survey the same and make return into this office be granted to Mollie L. Valentine, in accordance with the laws and practice of this Department.

Respectfully submitted,

JAMES H. CRAIG,

Deputy Secretary of Internal Affairs.

REPORT OF DEPUTY SECRETARY OF INTERNAL AFFAIRS.

In the matter of the application of Charles E. B. Dumbauld for warrant to survey 2,139 acres of vacant unimproved land, situated in Salt Lick township, Fayette county, filed in the Department of Internal Affairs under date of May 24, 1917.

In pursuance of the duties imposed upon the Secretary of Internal Affairs by the first section of the Act of Assembly approved the third day of May, 1909, I submit the following report of the investigation as to the question of vacancy of the land described in said application:

The applicant's draft describes the land as being surrounded by the warrants heretofore granted to Abraham Gallintine October 23, 1837; Peter Dumbauld April 2, 1840, and Andrew Trapp December 30, 1816.

A connected draft of the three above mentioned warrants is hereto attached and made part of this report. By reference to the said map it will be seen that a part of the western line of the Andrew Trapp, bearing S. 37 W. 146 perches from a dogwood to a poplar, forms the easterly boundary of the supposed vacancy. From the poplar on this line, on the Abraham Gillintine draft, the bearing is N. 38 E. 88 perches to a stone, and from the dogwood the bearing on the Peter Dumbauld draft is S. 37 $\frac{3}{4}$ W. 32 perches to stones. These two distances added make 120 perches, which subtracted from the distance given on the Andrew Trapp line before mentioned, 146 perches, leaves 26 perches. From the stone corner 88 perches from the poplar corner of the Abraham Gallintine, the next bearing of the Gillintine survey is N. 20 W. 31.8 perches to a stone in the line of the Peter Dumbauld bearing N. 73 $\frac{3}{4}$ W. 42.4 perches to a sugar. This point of intersection being 13.4 perches on a bearing S. 74 E., leaves a distance of 29 perches from the point of intersection of the line N. 20 W. 31.8 perches of the Gallintine survey to the "stones" corner at a distance of 32 perches from the dogwood corner of the Andrew Trapp on the line bearing S. 37 W. 146 perches.

This connected draft clearly shows that the land applied for is not covered by the three warrants thereon set forth, and a thorough search among the Land Office records fails to disclose any other office right for the same.

With all the evidence before me, I am of the opinion that the land described in this application is vacant, and I therefore direct that a warrant be issued to survey and return the same for patenting according to law and the practice of this office.

Respectfully submitted,

(SEAL.)

JAMES H. CRAIG,

Deputy Secretary of Internal Affairs.

REPORT OF DEPUTY SECRETARY OF INTERNAL AFFAIRS.

In the matter of the application of Charles E. B. Dumbauld for warrant to survey 5,979 acres of vacant, unimproved land situated in Salt Lick township, Fayette county, filed in the Department of Internal Affairs under date of May 24, 1917.

In pursuance of the duties imposed upon the Secretary of Internal Affairs by the Act of Assembly approved the third day of May, 1909, I submit the following report of my investigation of the question of vacancy of the land described in said application:

A connected draft hereto attached and made part of this report, shows the relative location of the Peter Dumbauld warrant bearing date April 2, 1840, and the Andrew Trapp warrant bearing date December 30, 1816. By reference thereto it will be seen that the time between these two warrants bearing, on the former, S. 50 W. 131 perches, and on the latter S. 49 W. 137 perches, from a white oak, a corner common to both, shows a difference of six perches in length. From the end of the distance, 131 perches, given on the official draft of the Peter Dumbauld warrant, the succeeding three courses, distances and corners are as follows: N. 65½ W. 26.2 perches to a sugar; N. 2½ E. 24 perches to a linn, and S. 82 W. 109.5 perches to a post, designated as a dogwood on the Andrew Trapp draft. This same line, from the dogwood, on the Andrew Trapp draft is given as bearing N. 81 E. 54.5 perches to stones, showing a difference in distance of 55 perches. From these stones, the next bearing of the Trapp draft is S. 67 E. 77 perches to stones, where the first mentioned line from the white oak, bearing N. 49 E. 137 perches, intersects.

This construction leaves the apparent vacancy described in this application, and as a thorough and careful search among the Land Office records in this Department fails to disclose any other office right to the land thus described, I am of the opinion that it is vacant, and I therefore direct that a warrant be issued to survey and return the same for patenting, in accordance with law and the practice of this office.

Respectfully submitted,

REPORT OF DEPUTY SECRETARY OF INTERNAL AFFAIRS.

In the matter of the application of W. A. Baker for warrant to survey an unimproved vacant island, containing 9 acres and 33 perches, situated in the Allegheny river, within the limits of Tionesta township, Forest county, filed in the Department of Internal Affairs under date of December 17, 1917.

In pursuance of the duties imposed upon the Secretary of Internal Affairs by the first section of an Act of Assembly approved May 3, 1909, I submit the following report as to the question of vacancy of the island described in this application:

By reference to the map shown on the third page of the application it will be seen that Dale Island is indicated as lying directly north of the one applied for. Dale Island was warranted to David Hunter January 26, 1820 and on August 20, 1864, was patented to the Heirs of Jesse Dale. The island applied for is also shown as located opposite the Dale tract on the eastern shore of the Allegheny river and opposite the Jamison tract on the western shore.

No warrant or other office right, except the one to David Hunter just referred to, can be found for any island in this immediate vicinity, and from all the evidence before me I am of the opinion that the island described in this application is vacant and I therefore direct that a warrant to survey said island and make return thereof for patenting be granted to the said W. A. Baker in accordance with law and the practice of this office.

Respectfully submitted,

REPORT OF DEPUTY SECRETARY OF INTERNAL AFFAIRS.

In the matter of the application of W. A. Baker for warrant to survey a vacant unimproved island containing 3 acres and 148 perches, situated within the limits of Tionesta township, Forest county, filed in the Department of Internal Affairs under date of December 17, 1915.

In pursuance of the duties imposed upon the Secretary of Internal Affairs by the first section of an Act of Assembly approved May 3, 1909, I submit the following report of my investigation as to the question of vacancy of the island above described:

By reference to the draft on the third page of this application it is seen that the south end of said island is situated 10 perches west of the southwest corner of an island patented to the Heirs of Jesse Dale, west of the Dale tract and east of the Jamison tract.

An examination of the return of survey upon which the patent was granted to the Heirs of Jesse Dale shows that the warrant therefore was granted to David Hunter January 26, 1820. This is the only warrant to be found among the records of this Department for an island in this immediate locality and is referred to on the draft accompanying the application.

From all the evidence obtained, I am of the opinion that the island described in the above mentioned application is vacant, and therefore direct that a warrant be granted to the said W. A. Baker to survey said island and make return for patenting, according to law and the practice of this office.

Respectfully submitted,

REPORT OF DEPUTY SECRETARY OF INTERNAL AFFAIRS.

In the matter of the application of W. A. Baker for warrant to survey a vacant unimproved island containing 20 acres, 96 perches, situated in the Allegheny river, within the limits of Tionesta township, Forest county, filed in the Department of Internal Affairs under date of December 17, 1915.

In pursuance of the duties imposed upon the Secretary of Internal Affairs by the first section of the Act of Assembly approved May 3, 1909, I submit the following report of my investigation as to the question of vacancy of the island described in this application:

By reference to the draft of the island applied for by W. A. Baker, on page 3 of his application, it will be seen that it is located 97 perches below "Hickory Town Flats," and westerly from an island warranted to David Hunter January 26, 1820, and patented to the Heirs of Jesse Dale August 20, 1864.

A thorough search among the records of islands situated in the said Allegheny river, remaining on file in this office, fails to disclose any warrant or other office right to an island located at this point, and from all the information obtained from the applicants draft of survey and its references to shore properties, I am of the opinion that the island described in this application is vacant and therefore direct that a warrant to survey said island and make return for patenting be granted to W. A. Baker, in accordance with law and the practice of this office.

REPORT OF DEPUTY SECRETARY OF INTERNAL AFFAIRS.

In the matter of the application of Mary B. Walton, of Waynesburg, Pa., for warrant to survey 6 acres, 67.52 perches of improved vacant land situated in the township of Franklin and county of Greene, filed in the Department of Internal Affairs under date of June 14, 1917.

In pursuance of the duties imposed upon the Secretary of Internal Affairs by the first section of the Act of Assembly approved May 3, 1909, I submit the following report of my investigation of the question of vacancy of the land described in this application:

I have caused a connected draft to be made of the warrants named in the application as the adjoiners of the supposed vacancy, which is hereto attached and made part of this report. By reference to the same it will be seen that the line N. 87 W. 20 perches, of the Richard Jackson tract, from a white oak to a white oak, forms the southern boundary that part of the line N. 15 W. 137 perches from the last-named white oak to a white oak, a corner of the Mainyard Rockhold tract surveyed August 16, 1799, on his warrant dated October 19, 1796, forms the western boundary of the part applied for; that the northwestern line of the James Maranda tract, from the white oak to the dog tree, bearing N. 23 W. 36 perches, and the line of the Patrick Martin tract from the white oak, (the dog tree on the James Maranda tract), to a post (a white oak on the Rockhold tract), bearing N. 33½ W. 53.5 perches, and a part of the line of the said Rockhold tract bearing N. 24 W. 22 perches, form the easterly boundary of the part applied for.

The connected draft having been compared with the draft found on the third page of this application, it was found that they practically agree with each other.

A thorough search has been made among the land office records on file in this Department, but no other office right can be found to cover this area. With all the facts before me, I am therefore of the opinion that the land described in this application is vacant, and I therefore direct that a warrant to survey the same and make return thereof for patenting be granted to the applicant, according to law and the practice of this Department.

In the matter of the application of Nehemiah R. Gilbert for warrant to survey 27.807 acres of improved vacant land in South Franklin township, Washington county, filed in the Department of Internal Affairs under date of July 11, 1917.

In pursuance of the duties imposed upon the Secretary of Internal Affairs by the first section of the Act of Assembly, approved May 3, 1909, I submit the following report of the investigation as to the question of vacancy of the land described in the above application:

By reference to the connected draft hereto attached and made part of this report, it will be seen that the part applied for is entirely surrounded by the warrants of Peter Beabout, Henry M. and Sarah C. Keeny, and Ira L. Lacock, dated respectively December 1, 1818, April 8, 1907, and November 26, 1909. Their courses and distances agree with the draft submitted by the applicant, as found on the application hereto attached.

After a thorough search among the records of the Land Office Bureau, which fails to disclose any other right to this land, and a careful consideration of all the facts before me, I am of opinion that the land applied for is vacant, and I hereby direct that a warrant to survey the same be granted to the above-named applicant in accordance with the law and the practice of this Department.

REPORT OF SECRETARY OF INTERNAL AFFAIRS.

In the matter of the application of the St. Vincent Archabbey, per P. Charles Lindner, Procurator, for warrant to survey four acres of vacant unimproved land situated in Mt. Pleasant township, Westmoreland county, filed in the Department of Internal Affairs of Pennsylvania under date of July 13, 1917.

In pursuance of the duties imposed upon the Secretary of Internal Affairs by the first section of the Act of Assembly approved May 3, 1909, I submit the following report as to the question of vacancy of the land described in the above-mentioned application:

By reference to the connected draft hereto attached and made part of this report, it will appear that the question of vacancy in this case depends entirely on the relative location of the following tracts. viz: Margaret Campbell, surveyed May 11, 1795, on a warrant dated February 4, 1794; John Chambers, Jr., surveyed June 28, 1842, on warrant dated June 13, 1842, and Boniface Wimmer, surveyed June 4, 1867, on a warrant dated March 16, 1867.

The part applied for is marked *

A

The Margaret Campbell survey, being the first of these three surveys to be located on the ground, is taken as the basis for this investigation. Its southeastern corner is called a "C. O." (chestnut oak). The Boniface Wimmer survey at its southwestern corner also calls for a chestnut oak and has practically the same course and distance on its southwestern line as the southeastern line of the Margaret Campbell, but at the northern extremity of this line, on the Campbell draft, a birch is called for, while on the Wimmer draft a stone is called for, but this is explained by the fact that seventy-two years elapsed between the surveying of the Campbell tract in 1795 and the Wimmer tract in 1867. The next line of the Wimmer tract, although bearing N. 4° E., must be presumed to follow the same line as that of the Campbell tract, which bears due north, for the distance of 37 perches, as given on the official draft, to a stone corner. From this point, the next two lines of the Wimmer bearing N. 31° E. 20.3 perches to a fallen chestnut, and N. 8° E. 22 perches to a stone, diverge from the due north line of the Campbell tract. From the last-mentioned stone, which is also the southwestern corner of the John Chambers, Jr., tract, lying north of and adjoining the Boniface Wimmer, the first line of the Chambers tract bears due north 20 perches to a chestnut oak.

The two northwestern lines of the Wimmer tract, N. 31 E. 20.3 perches and N. 8 E. 22 perches, and the southwestern line of the John Chambers, Jr., tract bearing N. 20 perches, with part of its line bearing N. 42 W. 47 perches, form the southerly, easterly and northerly boundaries of the part applied for, while part of the due north line of the Margaret Campbell tract forms its entire western boundary. The connected draft of the Campbell, Chambers, Jr., and Wimmer tracts, as constructed by a draftsman of this Department, shows practically the same results as are shown on the applicant's draft, namely, that the part applied for is not covered by any or all of the tracts shown thereon, and as a thorough search among the records of this Department does not disclose any other office right, warrant or otherwise, covering the land described in this application, I am of opinion that the land applied for is vacant and hereby direct that a warrant to survey the same be granted to the applicant under the law and rules of this Department.

REPORT OF SECRETARY OF INTERNAL AFFAIRS.

In the matter of the application of Levan Ash for warrant to survey 19 acres and 132 perches of vacant improved land in Jenner township, Somerset county, filed in the Department of Internal Affairs of Pennsylvania under date of July 18, 1917.

In pursuance of the duties imposed upon the Secretary of Internal Affairs by the first section of the Act of Assembly approved May 3, 1909, I submit the following report as to the question of vacancy of the land described in the above-named application:

By reference to the connected draft of the five following tracts, viz: Benjamin Davis, warrant dated June 20, 1774; Thomas Proctor, warrant dated December 23, 1773; John Rench, warrant dated January 6, 1785; Stephen Tanner, in right of Tobias Penrod, warrant dated May 25, 1786, and John Wells (son of Richard), warrant dated June 12, 1792, hereto attached and made a part of this report, it will be seen that the part applied for, hatched and marked "A," is surrounded by the Benjamin Davis, Stephen Tanner and John Wells tracts, the John Rench and Thomas Proctor being used to make a certain tie-up of the Thomas Proctor and Benjamin Davis tracts with the Rench, Tanner and Wells tracts, which is done by beginning at the dogwood corner common to the Rench and Proctor drafts with also a common call for Alexander Carlisle.

In 1774 the land applied for now was called vacant by the Deputy Surveyor who surveyed the Benjamin Davis tract on July 20 of that year; and in 1792 the Deputy Surveyor marked the land now applied for "Vacant Stony Land" on his return of survey of the John Wells tract, eighteen years after the location of the Benjamin Davis tract. As the Stephen Tanner tract was located six years before the John Wells, the call along the southern line thereof, N. 56 W. 215 perches. from a hickory to a post, is for "Vacant Land," and as the distance from the aforementioned hickory on the same line of the John Wells is but 123 perches to a white oak, leaving a difference of 92 perches, this 92 perches is the length of the northern boundary of the part applied for, extending from the white oak of the Wells tract to the post of the Tanner. From the said white oak, the northwesterly line of the Wells tract bears S. 80° 40' W. 99.6 perches to a post. The call for adjoiner north of this line is for "Vacant Stony Land," and as it is the southern line of the part applied for, this fact taken with the fact that the calls of the Benjamin Davis and the Stephen Tanner are both for vacant land, and that after a careful search among the records of the Land Office we are unable to find any record of a title having been granted for this land, I am of opinion that the land described in this application is vacant, and hereby direct that a warrant be granted the applicant in this case in accordance with law and the practice of this Department.

REPORT OF SECRETARY OF INTERNAL AFFAIRS.

In the matter of the application of John H. Heffner for warrant to survey two acres of unimproved vacant land situated in West Providence township, Bedford county, filed in the Department of Internal Affairs of Pennsylvania under date of August 21, 1917.

In pursuance of the duties imposed upon the Secretary of Internal Affairs by the first section of the Act of Assembly approved May 3, 1909, I submit the following report of my investigation of the question of vacancy of the land described in the above application:

By reference to the connected draft hereto attached and made a part of this report, it will be seen that the part applied for lies between the Henry Coonrod warrant, bearing date the 18th day of April, 1790, surveyed October 23, 1793; the Joseph Sparks warrant, bearing date November 4, 1789, surveyed June 2, 1790; the Joseph McDonnald warrant, dated May 14, 1788, surveyed February 4, 1786, and the David Evans warrant bearing date April 29, 1837.

The bearing of the line of the Henry Coonrod survey adjoining the supposed vacancy on the north is given as N. 89 E. and the distance from the black oak corner as 117 perches to a post, while the bearing of the northern line of the David Evans is due east from the same black oak corner, and the distance is 6 perches to a post. The bearing of the north line of the Joseph McDonnald is also due east and the distance is 120 perches to a black oak. The bearing from this black oak on the Joseph Sparks survey is N. 68 W. 9 perches to the post corner of the Henry Coonrod, which leads to the belief that there is a strip of land, as shown on the connected draft above referred to, which is not covered by any surveys thereon.

A careful search among the records of the Land Office fails to show any warrant or other office right for the land described in the application, and I am of opinion that it is vacant and hereby direct that a warrant issue to the said John H. Heffner, according to law and in accordance with the practice of this office.

Respectfully submitted,

REPORT OF SECRETARY OF INTERNAL AFFAIRS.

In the matter of the application of William Leslie Donson for warrant to survey one acre of improved vacant land situated in West Bethlehem township, Washington county, filed in the Department of Internal Affairs of Pennsylvania under date of September 7, 1917.

In pursuance of the duties imposed upon the Secretary of Internal Affairs by the first section of the Act of Assembly approved May 3, 1909, I submit the following report on the question of vacancy of the land described in this application:

According to the applicant's draft, the land applied for lies between a warrant to Daniel McFarland dated April 18, 1796, on the north, a warrant to Morgan Martin dated May 28, 1900, on the east, and a warrant to John Fulton dated September 30, 1786, on the west and south; but according to a construction of the official drafts returned to this office on these warrants, it will be found by reference to the connected draft hereto attached and made part of this report, that the surrounding lines should be as shown thereon.

As there is a difference of seven degrees between the lines of the Daniel McFarland, Jr., and the John Fulton, from the common black oak corner of the two tracts, these lines bearing respectively S. 47 E. 44 perches and S. 40 E. 207 perches, cannot be considered as lines common to each other, but form the northerly and southerly lines of the part applied for. The Morgan Martin tract, surveyed October 20, 1900, as located on the said connected draft hereto attached, forms a part of the southerly boundary of the alleged vacancy.

As neither of the above-mentioned warrants covers any part of the land as shown on the attached draft, and as no other office right for this land can be found among the records of this Department, I am of opinion that the land applied for is vacant and hereby direct that a warrant be granted to the applicant for the same, according to law and the rules of this Department.

Respectfully submitted,

REPORT OF SECRETARY OF INTERNAL AFFAIRS.

In the matter of the application of W. H. Keys and P. B. Burtis, assistant secretary of Union Coal and Coke Company, for warrant to survey thirteen acres of improved vacant land situated in the township of West Bethlehem and county of Washington, filed in the Department of Internal Affairs of Pennsylvania under date of September 7, 1917.

In pursuance of the duties imposed upon the Secretary of Internal Affairs by the first section of the Act of Assembly approved May 3, 1909, I submit the following report on the question of vacancy of the land described in said application:

The question of vacancy of the land applied for in this case depends mainly on the relative location of the three other tracts of land shown on the connected draft hereto attached and made a part of this report. Beginning at a hickory corner common to the Benjamin Daniels warrant of January 26, 1785, the Andrew Young warrant of January 27, 1785, and the John Arnold warrant of May 8, 1788,

The above is a connected draft made to accompany the report of the Secretary of Internal Affairs of Pennsylvania on the application of William H Keys and P B Burtis for a warrant to survey 13 acres of improved vacant land situated in West Bethlehem Township, Washington County, filed under date of September 7, 1917

John H. Wampbell
Chief Draftsman

the western line of the John Arnold warrant bears N. $41\frac{1}{2}$ W. 124 perches to an "allum," while the eastern line of the Andrew Young warrant bears N. 12 W. 120 perches to a walnut, making a difference of $71\frac{1}{2}$ degrees in bearing, 4 perches in distance and two distinctly different corners, namely, an "allum" on the Arnold and a walnut on the Young. From these two corners, the western lines of the Christopher Horn and the eastern lines of the Andrew Young surveys are of practically the same bearings with some difference in distances which might be accounted for in several ways. From the hickory corner at the south end of the second western line of the Christopher Horn warrant southward from the John Meek call, will be seen a line bearing N. 33 E. 10 perches to a white oak. These ten perches of line cut into the Horn survey prove that the hickory of the Horn tract is the white oak of the Andrew Young, or that they are near each other, and that the white oak of the Young survey is not the white oak ten perches east of the hickory called for by the Horn above referred to. Consequently, there is a piece of land at this point ten perches wide not covered by either the Horn or the Young survey, as has been shown, the lines of the Young and those of the Arnold begin to diverge from the hickory, the common corner of these surveys, extending a distance of 120 perches on the Young and 124 perches on the Arnold, which is additional evidence that the strip of land shown on the connected draft lying between the Young survey on the west and the John Arnold and Christopher Horn on the east and the Horn on the north, is not covered by these surveys, and as a careful search among the records of this Department does not disclose any other office right to the same, in view of all the evidence before me I am of opinion that the land applied for is vacant, and hereby direct that a warrant issue to the applicants according to the law and the practice of this office.

Respectfully submitted.

REPORT OF SECRETARY OF INTERNAL AFFAIRS.

In the matter of the application of Isaac Gayman and A. J. Ulery, for a warrant to survey ten acres of improved vacant land situated in West Bethlehem township, Washington county, filed in the Department of Internal Affairs under date of September 7, 1917.

In pursuance of the duties imposed upon the Secretary of Internal Affairs by the first section of the Act of Assembly approved May 3, 1909, I submit the following report as to the question of vacancy of the land described in this application:

The map accompanying this application shows a strip of land running the entire distance of the survey returned on warrant of June 20, 1786, granted to Christian Gayman, from a white oak at the most northerly corner of the Myles Hayden warrant of November 10, 1784, to an elm, the northeastern corner of the said Gayman warrant, whereas the connected map constructed from the official drafts on file in this Department shows a well-defined lap of lines, beginning about thirteen perches from a white oak corner of the said Christian Gayman, on the line bearing N. 49 E. 56 perches to a sugar, and running northward to and beyond a hickory corner of another Christian Gayman tract, called "Rose's Choice."

Assuming the connected draft made from the official returns in this Department to be correct, there is left of the part applied for, as shown on the applicant's draft, the area of the figure marked "*" on the connected draft hereto attached. No other warrant or other office right having been found to cover this land, after a careful search among the records of the Land Office, and the surveys of neither the Christian Gayman tract called "White Oak Level," nor the Stephen Ulery et al. tract called "Cranberry," including it, I am of the opinion that such part of the land described in this application as is designated on the connected draft hereto attached and marked "*" is vacant, and I hereby direct that a warrant to survey the same be granted to the said applicants according to the law and the rules of this Department.

In pursuance of the duties imposed upon the Secretary of Internal Affairs by the first section of the Act of Assembly approved May 3, 1909, I hereby submit the following report on the question of vacancy of the land described in this application:

According to the applicant's draft submitted with his application, this land is surrounded by the Daniel McFarland warrant dated April 18, 1796, the John Fulton warrant dated September 30, 1786, and the Thomas Iiams warrant dated February 10, 1807. From the

official returns of surveys of these tracts a connected draft, which is hereto attached, and made part of this report, was constructed by this Department, and by reference thereto it will be seen that the eastern boundary of the part applied for is made up of the following three courses and distances of the Daniel McFarland, Jr., survey, viz: Beginning at a maple, N. 17 E. 10 perches to a white oak, N. 76 W. 6½ perches to a white oak, and N. 6 E. 20 perches to a white oak; its western boundary is formed by part of the Thomas Iiams line bearing S. 22 W. 106 perches from a white oak to stones; and the southern boundary is the line of the John Fulton bearing N. 70 E. 23 perches from two dogwoods to a white oak corner, which on the Daniel McFarland, Jr., survey is called a maple.

It is therefore evident that so far as these three surveys are concerned, the land applied for is vacant, and as a thorough search among the records of this Department does not disclose any other office right covering the same, I am of opinion that the land applied for is vacant and hereby direct that a warrant to survey the same be granted to the applicant according to law and the rules of this Department.

REPORT OF SECRETARY OF INTERNAL AFFAIRS.

In the matter of the application of Frederick L. Westbrook for warrant to survey 108 acres and 25 perches of unimproved vacant land situated in the township of Blooming Grove and county of Pike, filed in the Department of Internal Affairs of Pennsylvania under date of June 21, 1917.

In pursuance of the duties imposed upon the Secretary of Internal Affairs by the first section of the Act of Assembly approved May 3, 1909, I hereby submit the following report as to the question of vacancy of the land described in this application:

The draft accompanying this application describes the land as being surrounded by the warrants granted to John Simpson, Andrew Simpson, both dated December 31, 1792, and Mary Seely, Application No. 4154, surveyed July 26, 1845, on order of the Board of Property dated June 16, 1845, on the west; by warrant granted to Jonas Seely, Esq., dated July 31, 1765, on the south and east, and by warrant granted to Robert Lettis Hooper, dated December 31, 1792, on the north.

By reference to a connected draft constructed from the returns of surveys on the above-named warrants, and hereto attached as part

of this report, it will be seen that none of them cover any part of the land described in this application. At first sight it would seem that the Martin Neligh warrant should be given its distance along the southern line of the Robert Lettis Hooper from the post in the western line of the Thomas Bulman survey, and that the Jonas Seely, Esq., survey should be moved westward along same, but as the latter was surveyed twenty-eight years prior to the location of the Martin Neligh warrant, the Neligh must give way to the Seely.

Attention is called to the location, on June 16, 1845, of the Mary Seely, Application No. 4154, as shown on the connected map, which calls for the Jonas Seely, Esq., tract along its eastern line. On this line these tracts have a common corner, a stone, and practically the same bearing, but the Mary Seely calls for a distance of 266 perches to a stone, while the Jonas Seely, Esq., calls for 203 perches to a white oak, a difference of 63 perches.

The Jonas Seely being thus certainly tied to the Mary Seely, the draft shows the location of the three next following lines as thereon set forth, leaving the vacancy applied for uncovered. The surrounding surveys, the Thomas Bulman and the Samuel Wigton, also confirm the interference of the Martin Neligh with the Jonas Seely, Esq., tract.

From all the facts before me, and as a thorough search among the records of the Land Office fails to disclose any other office right for the land applied for, I am of opinion that the land described in this application is vacant and hereby direct that a warrant to survey said land be granted to the said Frederick L. Westbrook, in accordance with law and the practice of this office.

Respectfully submitted,

(SEAL.)

REPORT OF SECRETARY OF INTERNAL AFFAIRS.

In the matter of the application of Charles M. Hull for warrant to survey nine and five-tenths acres of unimproved vacant land situated in the township of Jefferson and county of Washington, filed in the Department of Internal Affairs under date of November 8, 1917.

In pursuance of the duties imposed upon the Secretary of Internal Affairs by the first section of the Act of Assembly approved May 3, 1909, I submit the following report of my investigation of the question of vacancy of the land described in this application:

A Connected Draft made to accompany the application of Chas. M. Hull for nine and five-tenths (9.5) Acres of vacant, unimproved land, situated in the township of Jefferson, Washington County, and filed in the Department of Internal Affairs, of Pennsylvania, at Harrisburg, Pa, under date of November 8, 1917.

John H. Campbell
Chief Draftsman.

By reference to a connected draft, constructed and compared with the original drafts on file in this Department, referred to by the applicant as adjoining and surrounding the part applied for, hereto attached and made a part of this report, it will be seen that the eastern line of the John Hanlin, marked "*", forms the western line of the part applied for; that parts of the two southern lines of the Thomas and Robert Weaver tract form the northern boundary of same, and that parts of the two northern lines of the Edward Justice tract form its southern boundary.

There is a call on the official draft of the John Hanlin, along the lines S. 59 W. 63 perches and N. 60 W. 65 perches, for Thomas Enders. This is evidently an error or a call for a subsequent owner, as a thorough search among the Land Office records fails to disclose any warrant or other office right in the name of Thomas Enders or any other person, and the land adjoining the last-mentioned line is covered by the Edward Justice tract, surveyed August 10, 1785, and patented to Samuel Jones, in trust, etc., May 18, 1790. The north-western line of this tract is also 13 perches longer than the same line of the John Hanlin tract, and while the bearing of the eastern line thereof is N. 59 E. and its distance is but 63 perches, the bearing of the second line from the Virginia state line of the Edward Justice tract is N. 69 E. and the distance is about 120 perches.

It is evident that the difference in bearings and distances are too great to suppose that these two lines are, or were, intended by the surveyors who located them, to be the same, and as both the north and south lines of the Hanlin tract fall short of those of the Edward Justice line on the south and the southern lines of the Thomas and Robert Weaver tract on the north, it is reasonable to conclude that the Hanlin should only extend eastward its given official distances.

I am, therefore, satisfied that, in view of all the evidence before me, the land described in this application is vacant, and I hereby direct that a warrant to survey the same be granted to the said applicant according to law and the practice of this office.

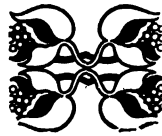

Respectfully submitted,

(SEAL.)

PAUL W. HOUCK,

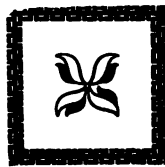

November 12, 1917.

Secretary of Internal Affairs.
